To celebrate Parent Involvement :

Each parent received the page out of the PIRC “10 Ways for Parents to Help Teachers.” We discussed how things were going with their school age children and talked about setting up the classroom computers with the school district website. Each parent will be able to email their child’s teacher from the school district website when they enter their password provided by the school district.

We gave each child a new backpack with a new tablet, homework folder, and a stocked literacy box. We hope this will help each family start the year in an organized way to transport books, papers, homework from school to home and vice versa.

We will begin our evening class with a homework club October 6. Homework club/evening class will be every Wednesday evening from 3:30 p.m. – 6:00 p.m. We start with a light snack/meal and then have an hour dedicated to homework time. The staff helps facilitate parents and children with healthy homework sessions.
